Objects without Database id[*]	Objects with Database id[*]
ClaimCopyright ClaimProfile Insidetracks License Mixes Playlists PlaylistsItems Release Songs Stems Videos User**	DdexDdexIngest DdexCwrIngest ProfileList SplitsCreate

Notes:

* id is the only path parameter (in the http:// path). All others are quiry

** User is the only non-BrigeApi field.

Object	Main Type of Object	Other Types of Objects Used	Non-bookkeeping Searchable Items
ClaimCopyright	copyright	media	
ClaimProfile			
Insidetracks			blogCategory, category
License	license	media	
Mixes	audio		
Playlists			genre, description
PlaylistsItems		media, playlist	genre
Release	release	media	
Songs	audio		genre, bpm
Stems	audio		audioType, genre, bpm
Video	video		genre, bpm

User	user		

Set Up:

Bold is type of action

CAPS IS TYPE OF REQUEST - followed by normal name of command (can be None)

Italics is the precursor to all parameters but id (other ids like MediaId are affected)(can be None)

e.g., copyright MediaId and Role → copyrightMediaId and copyrightRole

Normal is the parameter
